Complex Orthopaedic.

Pain Management,
Vocational Support.

Profile

Rowan is a highly skilled case manager with over 10 years' experience of neurorehabilitation. She has developed a good relationship with referrers and clients alike as a competent and compassionate case manager.

Having worked within the insurance industry, as well as independent case management, she has honed her expertise over many years and has specialised in working with adults and adolescents who have experienced life-changing injuries including brain injury, spinal injury, and polytrauma. Rowan provides both rehabilitation and vocational assistance to clients following injury or illness to enable them to return to an independent and satisfying life.

Rowan is a pragmatic case manager who successfully coordinates services to ensure a holistic support package is in place to enable the individual, and their families, to successfully engage with rehabilitation. With a wealth of clinical experience together with commercial knowledge and experience, Rowan uses this to the benefit of her clients and referrers.

Testimonial

"Rowan has overseen many rehabilitation cases that I have been involved with for many years now and has always done a fantastic job as a Rehabilitation Case Manager. Rowan oversees the rehabilitation process in a professional and assured way but more importantly provides a very high level of support to those people requiring it, at a point in their life where there is often uncertainty about the future, and what level of recovery they will be able to make.

Rowan is always empathetic to the needs of an individual, but also does a great job of challenging people to attain the highest possible recovery from their injuries and supporting them on this journey." – *Rehabilitation Manager*
