Profile

Anna Edwards is a registered nurse, independent case manager and expert witness who values integrity, transparency, and quality in her practice.

Anna is a dedicated and skilled nurse who excels in providing personalised rehabilitation and care packages. She puts each client at the heart of their rehabilitation journey, tailoring her approach to meet their unique needs.

With extensive experience and deep knowledge in her field, Anna ensures that every aspect of her care is delivered with both compassion and professionalism. She is committed to maintaining high standards by using evidence-based practices and key performance measures. Anna's goal is to offer not just effective care, but also a supportive and empathetic experience for each client.

Drawing from over a decade of experience in Major Trauma, Spinal Injuries, and Neuro-Rehabilitation, along with senior roles in the NHS, Anna adeptly navigates complex challenges. She specialises in supporting diverse client groups with complex physical and cognitive needs, including those with respiratory care requirements, including tracheostomy and ventilation. She has a strong understanding of the guidelines set by the Vocational Rehabilitation Association (VRA) and the Case Management Society of the United Kingdom (CMSUK). This allows her to apply a thorough and detailed approach to case management, ensuring high-quality care for her clients.

Her experience as a nursing manager and matron in the NHS, has equipped her with skills in coordinating large teams, ensuring efficient, effective care delivery, whilst navigating complex statutory systems. She takes pride in delivering tailored interventions and fostering positive partnerships to ensure comprehensive and cohesive care delivery. Anna's experience extends to safeguarding, managing complex cases with agencies and social services, and she has been actively involved in leading and coordinating multidisciplinary teams, addressing matters related to Deprivation of Liberty Safeguards (DOLS), decision-making, best interests, Continuing Healthcare (CHC) needs, and funding.

Testimonial

"Anna encouraged and facilitated cross communication among professionals and involved both professionals and clients in MDTs. She turned around what had previously been poor case management and treatment for one of the clients and remotivated them to engage with her team. I know also from both clients that they felt supported by Anna and the team she brought in to help them professionally and personally. The good progress the clients are making is down to her facilitation, attention to detail and interpersonal skills." - *Counselling Psychologist*
