Headaches.

Profile

Helen is a dedicated and compassionate case manager with specialist experience supporting clients with brain injury, spinal cord injury, and amputation. Helen has experience working with clients internationally, including the UAE, USA, and Portugal. She is a qualified physiotherapist with over 15 years of clinical experience both in the UK and internationally.

Helen specialised in the field of neurological rehabilitation early on in her career and has since gained a vast array of experience within acute neurology and long-term conditions. As a case manager, Helen works with adults who have sustained complex injuries such as traumatic brain injury, spinal cord injury, complex polytrauma and amputation. She is highly driven and passionate about helping people reach their full potential following life-changing events.

Helen has worked as a subject matter expert for the health authority licensing exams and as a physiotherapist to the UAE royal family. She has been invited to present on neurological physiotherapy management and the importance of coordinated care at numerous national and international conferences. Helen holds a master's degree in public health with distinction.

Testimonial

"Working with Helen these past few years has been a pleasure. She is very organised and provides the best care possible for me. She pays attention to detail and is always available to help. She calls to check that I have everything I need and always lets me know that she's there to help. She is very supportive when it comes to my care, and she makes sure that my sister is aware of everything going on. As a family member that liaises with Helen, I find her to be very organised and professional. She has my brother's best interest at the forefront of what she does. She is also very trustworthy and honest. Best case manager we've had!"
