### Testimonial

"I will happily express my gratitude to you for your persistence and determination in pressing the defendant insurer to agree to further funding for ongoing case management, assessment, and crucial treatment for our client. Your perseverance has been fundamental to our client's ongoing rehabilitation and recovery. This has been important not least because the insurer invited our client to agree to your assessment, recommendation, and treatment in order to mitigate his own loss but also because of the stage of life our client is at who has his whole life ahead of him. You are an absolute credit!" – *Legal Director, Medical Negligence*
